My wife and I have used Paul Pangburn as our only source for mowing in the summer, snow plowing in the winter, as well as all remedial work needed with our grounds as well as our residence. We have used him for a number of years to our complete satisfaction. He often performs needed services on our 1.25 acre yard without us even having to request it. He has cut down trees, trimmed branches, replaced locks, done painting. In the winter he is here very early in the morning to plow in order for vehicles to get out, and comes back later to do sidewalks and other areas. He has always hired the very best of employees who are skilled in their work and most affable. I consider his hourly charge as well as his total charge for any job to be very reasonable. It is with pleasure I can recommend Paul Pangburn to both private residence owners and business owners.
